

THE JUGLET
Of the Northern California Contest Club

A compendium of last minute thoughts
upon which to base our next meeting!

The next meeting of the NCCC is scheduled for Wednesday, August 1, in the recreation room of the Northpark Apartment Complex, 1000 Carolan Ave, Burlingame, Ca. From the Bayshore Freeway, take the Broadway exit in Burlingame. Go west one block and make a left turn before the SP tracks onto Carolan. The Northpark Apartments are to your left. The recreation room is next to the parking lot, office and pool. Ask one of the resident airline stewardesses for directions if you become confused, or call Oliver at 348-2750 if you get lost. Meeting time is 8:00 PM sharp.

The All Asia Contest will be the main item of business. Teams will be announced and the David Baker, W6WX, trophy will be awarded to last year's winners. Three teams are being proposed for this year's fray--be present to find out where you fall!

Enclosed with this issue of the Jug is a postcard on which to register your vote vis-a-vis revision of Section 4 of the NCCC By-Laws. An affirmative vote is a vote to eliminate the present "two-step" membership procedure. The purpose of the revision is to allow an applicant to the NCCC to begin participating immediately in club functions without sitting out a meeting waiting for his second reading. Please get your ballot in the mail as soon as possible so we can get an accurate reading of NCCC sentiment upon this issue. **MOVED:** That Section 4, Article II of NCCC By-Laws be revised as follows: The president shall read the application, including call letters of the applicant, to the membership. A vote shall then be taken. An affirmative vote of 90% of those members present shall constitute acceptance of the application.

George Varvitsiotis, WB6DSV, was voted into membership at our last meeting. Please check your new club roster for his address and your address, if you spot an error add the correction to the postcard.

Congratulations to NCCC members W6CUF, W6RGG/6, W6FZS (alias W6BHY), and K6EBB on their outstanding showings in the 1972 All Asia DX Test. Respectively, these guys set new world-high, non-Asia records on 80, 40, 20 and 15 meters. No North American scores were submitted for either 160 or 10 meters. W6HQN in the multi-op and W6OAT in the single-op all-band categories were nosed out of first place scores by non-NCCC entrants (Gad!), and WA6DKF, K6DC, WA6TQK, K6ERT, W6ITD, W6OKK, and WB6OOL took back seats to their NCCC rivals even though making heroic showings. All-in-all an outstanding NCCC effort. Everyone can be proud of a job well done, ah--soo...

If you have a young contender in your neighborhood bring him to the meeting August 1...Perhaps we can find him a station in Nevada for the CQ test...

It looks like the high Field Day score might have been W9YT/9 in class 2A, with 3,000 QSO's. No HF beam or quad was used, just a pair of 200' flat-top dipoles at 70'. Four elm trees strategically located at Hoyt Park, Madison, Wisconsin were used. The NCCC is ready to award their traveling trophy to the published 2A winner.
